WORK EXPERIENCE

Research Intern / DisneyResearch|Studios

A lab advancing visual computing, AI, and filmmaking technologies.

Zürich, Switzerland | Feb 2025 - Present

- Delivered a complete interactive web application using Vue.js and TypeScript from concept to production for Disney studios (Lucasfilm, Pixar), with comprehensive UI/UX evaluation and data-driven improvements that increased user engagement and satisfaction.
- Built an end-to-end AI-powered data platform using Python, LLMs, and RAG systems to extract structured information from narrative text, with interactive Cytoscape.js visualization featuring dynamic filtering and relationship exploration capabilities.

Development Intern / Sensoryx

A Swiss startup specializing in motion tracking for VR/AR.

Zürich, Switzerland | Aug 2024 - Dec 2024

- Developed AR/VR 3 prototypes using Unity, XR Interaction Toolkit, and Oculus XR Plugin, implementing real-time 3D object manipulation, 3D painting, and hand tracking capabilities for motion tracking integration.
- Optimized VR stylus interaction systems through engineering collaboration, enhancing responsiveness and precision to deliver a significantly improved user experience for complex 3D interactions.

Interaction Developer and Designer / insdash

Independent web development and interaction design practice.

Remote, Taiwan, Switzerland | Jan 2022 - July 2024

- Built responsive web applications and tools using HTML5, CSS3, JavaScript, and Bootstrap with CMS integration, delivering scalable solutions for diverse client needs and workflows.
- Developed interactive prototypes and digital assets to streamline product development processes, enhancing user interaction patterns and supporting end-to-end project delivery.

ADDITIONAL EXPERIENCE

3D Artist & Animator / Thömus AG

A Swiss manufacturer of customizable high-quality bikes and e-bikes.

Remote, Switzerland | Oct 2022 - Feb 2023

- Created compelling 3D product animations, collaborating with CMO and Art Director to drive successful US market launch campaigns.

Product Design Manager / Yun.official

Fashion startup transitioning from handcrafted to digital e-commerce.

Taipei, Taiwan | Mar 2021 - Aug 2021

- Led UX audits and e-commerce optimization, aligning product functionality with user needs to secure key manufacturing partnerships.

Research and Teaching Assistant / Tamkang University

New Taipei City, Taiwan | Sep 2017 - Sep 2018

- Built and instructed computational design and robotic fabrication workflows (Grasshopper 3D, robotic arm programming, material prototyping), delivering 3 hands-on workshops, training materials, and on-site robotic fabrication for a large-scale architectural project.

SKILLS & TOOLS

Frontend Development

JavaScript, TypeScript, Vue.js, HTML5/CSS3, Bootstrap, jQuery, Cytoscape.js, Interactive Data Visualization

Backend & Tools

Python, C#, Node.js, RAG Systems, ChromaDB, Large Language Models (LLMs), Git/GitHub/GitLab

UI/UX & Prototyping

Figma, Miro, Adobe Creative Suite

AR/VR & 3D Development

Unity 3D, XR Interaction Toolkit, Oculus XR Plugin, Blender 3D, Cinema 4D, Rhinoceros 3D & Grasshopper

Digital & Robotic Fabrication

3D-Printing, Laser Cutting, CNC Milling, Digital Cutter, Plasma Cutting, Vacuum Forming, KUKA, ABB, UR10/UR5

Languages

English (Fluent)
Chinese (Native)
German (B1-B2)

EDUCATION

ETH Zürich

Switzerland, Sep 2018 - Sep 2019
Master of Advanced Studies
Architecture and Digital Fabrication
GPA 5.25 / 6

Tamkang University

Taiwan, Sep 2012 - Sep 2017
Bachelor of Architecture
GPA 3.430 / 4

CERTIFICATE

Google UX Design Certificate

Coursera, Issued 2021
